Technical Report No. 71382699-06

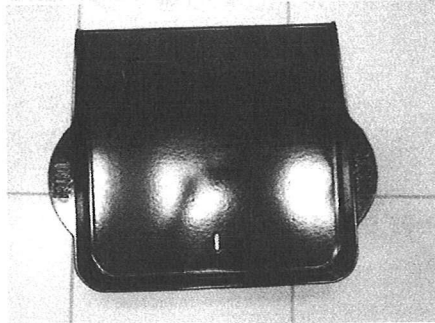

Rev. 00

Dated 19 December 2011

Client: Weber-Stephen Products Co.
Mr. Chris Childers
200 E. Daniels Road
Palatine, Illinois
60067-6266 USA

Manufacturing place: Not available

Test subject: Product:
Cast iron Plancha: black enamel heavy plate

Test specification: Global migration test with 3% acetic acid specified in 1935/2004/EC regulation and D.M. 21/03/73 Italy.
Heavy metals (cadmium, lead, nickel, chromium, manganese) specified in D.M. 21/03/73 Italy.

Purpose of examination: Inspection concerning global migration and specific migration test.

Test result: The submitted sample complies with the requirement of the global and specific migration test according to Regulation 1935/2004/EC and D.M. 21/03/73, Dec. 2010.

This technical report may only be quoted in full. Any use for advertising purposes must be granted in writing. This report is the result of a single examination of the object in question and is not generally applicable evaluation of the quality of other products in regular production.

3 Test Results

3.1 Test Results

Test Report No. **R-281901**
 Sample: **Weber Grill**
 Parameter: **Global migration**
 Method:
 Values:

Global migration 3% acetic acid, 30 minutes, 100°C 3 rd cycle	Results ±10% mg/dm²
Cast iron Plancha: black enamel heavy plate	<1

Requirement: Regulation 1935/2004/EC, D.M. 21/03/73, Dec. 2010, Italy

Limit: Italy: Global migration: < 8 mg / dm² (50 mg/kg)
 Other EU countries: < 10 mg / dm² (60mg/kg)

Sample: **Weber Grill**
 Parameter: **Specific migration test**
 Method: **AAS, ICP-MS**
 Values: **Dimension: mg/kg/dm²**

Specific migration test 3% acetic acid, 30 minutes, 100°C 3rd cycle	Results ±10% mg/dm²
	Cast iron Plancha: black enamel heavy plate
Chromium	0.02
Nickel	0.02
Cadmium	<0.0005
Lead	<0.005
Manganese	0.04

Requirements: **Germany**
 Chromium < 0.4 mg/dm²
 Nickel < 0.1 mg/dm²
 Cadmium < 0.005 mg/dm²
 Lead < 0.025 mg/dm²
